

9 June 1982

NOTE FOR: Chairman, National Intelligence Council

SUBJECT: Nunn/Davydov

Harry:

Some progress in addressing the Nunn proposal and the Davydov initiative--see NID draft by [redacted] OSOVA, attached. I still think our next best step is a critical review of, and decision on SPC's proposal about which you received a note and request from me on 24 May. FYI, I've attached a copy of the Nunn amendment as introduced in Congress. Despite the short deadline that it mentions for a Sec Def study (see Sec (a)), and Presidential report (see Sec (a)(3)(D)(b)), one of the prospective action officers [redacted] Office of Theater Nuclear Policy) tells us that nothing can be done by DoD until the amendment becomes law. (It would be interesting to know what Fred Ikle thinks about all of this.)
